# MAYOR'S ADDRESS.

Delivered in the City Hall,  
Monday, Jan. 1, 1906.

GENTLEMEN OF THE CITY COUNCIL:—

One year ago we assumed the duties and responsibilities of conducting the affairs of this city. We pledged ourselves to give to the City of Nashua a careful, economical, energetic administration of its affairs. How well we have succeeded we will leave for our critics to discuss and we will proceed at once to consider the problems that confront us at the beginning of the new year.

We have had a remarkably prosperous year. All our manufacturing industries have been busy and the steady, healthy growth which the city has made is very gratifying to us all. With this development and the increase in population, our needs and requirements have also increased; and it demands a very careful consideration of the improvements contemplated to decide which ones shall take precedence over others, since all could be made to good advantage to the city. But, in considering improvements, we must keep constantly in mind the state of our finances, our tax rate, and the duty we owe to the taxpayers.

The following is a statement of the resources and liabilities of the city at the present time:

Resources:

Uncollected taxes for 1902 .....	\$ 841 07
Uncollected taxes for 1903 .....	1,536 52
Uncollected taxes for 1904 .....	4,306 55
Uncollected taxes for 1905 .....	57,086 58
Sinking fund .....	182,435.92
Cash on hand .....	4,550 75

---

\$250,757.39

## Liabilities :

Bonded debt .....	\$777,508 91	
Time notes .....	24,000 00	
Demand notes .....	57,775 10	
		<hr/>
		\$859,284 01
Liabilities .....	\$859,284 01	
Resources .....	250,757.39	
		<hr/>
		\$608,526.62
Net debt, 1904 .....	\$590,425 49	
Net debt, 1905 .....	608,526.62	
		<hr/>
Increase .....		\$18,101.13

This increase in debt is readily accounted for when we consider that the original appropriation of \$60,000 for the new High School building having been entirely used up and the building still left in an unfurnished condition it became necessary to expend between \$19,000 and \$20,000 more in completing and furnishing the building. Had we not been obliged to do this we would have kept within our appropriations and we would have had a balance left to our credit.

At the City Farm the buildings were found to be very much in need of repairs and the sanitary conditions were also very bad. Repairs and improvements were made so that the property is today in good condition to sell, lease, or keep as the City Council may decide.

It is conceded by every one familiar with the facts that Mr. Wheeler, the superintendent at the City Farm, is an excellent farmer; that he has worked hard and faithfully to get the best results from the farm; that he has obtained better results than ever before in its history, and yet the fact remains that the farm is not self-supporting and it never has been. So far as the pauper feature is concerned you have practically abandoned the farm.

Nine-tenths of the poor are now being taken care of off the farm and only two or three city charges have been at the farm at any one time during the last four or five years. During the past 12 months only an average of two and five-twelfths paupers per month have been kept at the farm.

I have looked into this matter very carefully and I am of the opinion that the time has come when the farm should be disposed of; our worthy poor taken care of in some other way; and the prisoners sent to the County Farm. I recommend as a straight business proposition that the farm be sold, providing a fair price can be obtained for it; if not, that it be leased so that the farm may become a source of revenue to the city instead of an unnecessary burden upon the taxpayers.

The loss by fire for the year 1905 will fall way below the average. The city has been extremely fortunate in this respect, for there has been no fire which has caused any great loss of property.

I understand that some new apparatus will be asked for by the Fire Commissioners and that additional room is needed at the Central station which has been crowded since the Quincy street house was abandoned. This crowded condition will be aggravated when the sheds at the northwest corner of the building adjoining the new postoffice have been removed.

An attempt was made during the past year to extend the fire limit and to define more clearly just what form of construction would and would not be permitted. While the measure proposed was a mild one it failed of a passage in the lower branch of the City Council. It seems to me this matter should be taken up again and more carefully considered.

Our schools are in excellent condition. The new schoolhouse on Mulberry street is now completed and ready for occupancy. Extensive repairs have been made on the Spring street building and also on the suburban schoolhouses.

In the street department many improvements are needed. Frequent complaints are made by taxpayers of the bad condition of our streets. The sidewalks are also very bad in many places.

but, under the existing laws, we are unable to do very much to remedy this condition. A betterment law is needed and I hope something will be done in this direction at the next session of the legislature.

Since the city has been restrained from using Salmon brook for sewerage purposes, save for surface water, that portion of the city lying south of Lake and Otterson streets together with a large part of the Crown Hill district has been left without sewerage privileges. I shall urge that a commencement be made this year on a new sewerage system to begin at the Merrimack river in Edgeville and to come west through Burke street, thus providing for the sewerage of the southern portion of the city.

The police signal system, which was installed during the past year, has been found to be a great improvement over the method formerly employed. It enables the officer in charge at the station to keep constantly in touch with every officer on his beat. By an agreement with the police commission this system was established on a basis that will eventually make it pay for itself. When the system was installed the office of police sergeant was discontinued at a saving of about \$800 a year in salaries paid by the department. And this amount, \$800, will be utilized each year to pay the interest and part of the principal until the entire cost of the signal system shall be paid.

A patrol wagon is needed for the city. Now it is possible by bringing the ambulance under the control of the police department to combine the ambulance service with a police patrol service. This would enable the police department to have a team available at all times for commitments, for all urgent cases of arrest, and for general use. Such a combination of the ambulance and the patrol services could be affected and maintained without much additional expense to the city. I recommend, therefore, that this matter be looked into carefully; and, if it is found to be practical, that favorable action be taken upon it.

ANDROS B. JONES,  
*Mayor.*

### **Fire Alarm Telegraph.**

This branch of the service is in good condition, but will, in the near future, require a larger and more up-to-date machine than the one now in use as the number of boxes have been doubled since its installation and has now reached its limit in two of the four circuits.

The outlay required will be, approximately, \$1,500.00 for an eight circuit machine in place of the four circuit machine now in use.

---

### **Instructions to Key Holders and Citizens.**

1. Upon the discovery of a fire, go to the nearest box, turn key in lock, and hold bolt back with key, as it is a spring lock, pull down the hook as far as it will go; shut the door. Do not try to remove the key, as it is locked in, and cannot be removed unless by one of the engineers, who will, as soon as convenient, release and return it.

2. All persons giving fire alarms should remain awhile beside the box so as to direct the firemen to the fire.

3. No person will give an alarm for the same fire after the first alarm has been given without an order from an engineer or the officer in command, and the person so ordered will be sure to go to the same box from which the first alarm was given and report to the chief engineer.

4. Never signal for a fire seen at a distance; never touch a box except to give an alarm of fire; do not give an alarm for a chimney fire.

5. Never let a key out of your possession unless called for by the chief engineer. If you change your residence or place of business where the keys are kept, return the key to the same officer.

### Apparatus and Hose.

The apparatus consists of four Amoskeag steam fire engines, one one-horse reel, four two-horse hose wagons, four supply wagons, one hook and ladder truck, one combination chemical and hook and ladder truck, one Babcock chemical engine. All in first-class condition.

We have, at present, about 11,000 feet of fabric hose in good condition.

ANNUAL REPORT  
OF THE  
BOARD OF PUBLIC WORKS  
FOR THE  
YEAR ENDING DECEMBER 15, 1905.

---

To the Honorable, The City Councils of the City of Nashua,  
New Hampshire:—

GENTLEMEN:—According to Section 5 of Chapter 283 of the Laws of the State of New Hampshire, entitled An Act in Amendment of the Charter of the City of Nashua, The Board of Public Works presents to you its annual report for the twelve months ending December 15, 1905.

The Board has held 24 regular meetings and 7 special meetings.

ORGANIZATION.

January 1, 1905, His Honor, Mayor Jones, appointed Mr. A. W. Dean to serve on the Board of Public Works for a term of three years and his appointment was confirmed by the Board of Aldermen.

Following are members of the Board of Public Works:

Hon. Andros B. Jones, Mayor, (Chairman, ex-officio.)

Edward J. Johnson, City Engineer, (Member ex-officio,) clerk.

Henri T. Ledoux, term expires Jan. 1, 1906.

Augustus W. Shea, term expires Jan. 1, 1907.

Arthur W. Dean, term expires Jan. 1, 1908.

At the regular meeting January 2, Mr. Ovid F. Winslow was elected Superintendent of Streets for the ensuing year at a salary of \$1,200.00 per year and Mr. Augustin C. Blain, Assistant Superintendent of Streets, for the same time at a salary of \$800.00 per year, and Mr. Edward J. Johnson was elected clerk.

At the meeting held April 3, the Board adopted the following rules of government:—

#### Meetings:

Regular meetings shall be held at 4:00 p. m. at the office of The Board on the first and fifteenth day of each month, unless such date fall on a Sunday or legal holiday, in which case the meeting shall be held on the next succeeding business day. Special meetings may be called by the Mayor or in his absence by the clerk, notices of such special meetings to be given in person to each member or left at his residence. Any vote passed at a special meeting shall be reconsidered at the next regular meeting, upon motion of any member who was absent from the special meeting when such vote was passed. Three members of the Board shall constitute a quorum. After a meeting has been called to order by the Chairman the order of business shall be as follows: (1) Reading minutes of previous meeting. (2) Reports. (3) Unfinished business. (4) Approval of Bills. (5) New Business.

Any motion or resolution offered by any member shall be presented in writing, if so requested by the Chairman. The Clerk shall record the names of members making and seconding all motions, or introducing resolutions or orders.

#### Chairman:

The Mayor is ex-officio Chairman of the Board; in his absence the Clerk shall call the meeting to order and a temporary chairman shall be elected by the members present.

**Clerk :**

Unless the Board shall vote otherwise the City Engineer shall be Clerk of the Board. He shall make concise record of the proceedings of all meetings, shall make brief record by title of all petitions received and shall keep on file all petitions, correspondence, estimates, reports and copies of all orders. The Clerk shall keep a detailed and correct account of all expenditures of the Public Works Department and shall give to each member monthly a written statement of the amounts approved and charged to the sub-departments during the preceeding month, statement shall also show the expenditures during the corresponding month of the previous year, also the expenditures during the year up to the time of the statement, together with the expenditures during the corresponding period of the previous year.

**Election of Employees :**

All election of employees shall be by ballot, and all matters pertaining to the term of office and salaries of employees shall be determined by vote of the Board. No election shall take place, (except to temporarily fill vacancies) at a special meeting, unless notice of such proposed election is given in the notice of the meeting, in which case notice must be given to each member at least five calender days before the time fixed for the calling of the meeting.

**Superintendent of Streets :**

A Superintendent of Streets and such other officers as the Board may deem necessary shall be elected in the month of January of each year, to hold office for the ensuing year. Said Superintendent shall perform such duties as the Board shall direct, he shall be provided with an office and the necessary furniture, and shall have an office hour each business day. He shall, unless otherwise ordered by the Board, have general supervision,

under the direction of the Board of all work relating to the Public Works Department. He shall make each day a written report of the work performed under his direction, such report to give such information as called for by the blanks which will be furnished him. Such reports shall be signed by him and filed with the Clerk of the Board as soon as possible after each day.

#### Pay Rolls :

All pay rolls made by the Superintendent shall be presented to the Board for approval and shall be sent to the Clerk not later than three o'clock p. m. on the first and fifteenth of each month unless such days shall fall on Sunday or legal holiday in which case they shall be sent on the next succeeding business day.

#### Bills :

All bills for materials used in the departments under the control of this Board shall be sent to the Superintendent of Streets within twenty-four hours after the delivery of the goods and all such bills shall bear the number of the order.

Bills against the Board shall be examined at the first meeting of each month and when approved shall be payable at once.

#### Employment of Laborers :

In the employment of laborers in the departments under the control of this Board preferment shall be given to citizens.

#### Classification of Departments :

For convenience in accounting, the departments shall be divided as follows :

## CASH.

At times it is necessary for the Board to do work jointly with other parties and to dispose of material. If the money in such cases is paid to the City Treasurer, under the existing ordinances it is not credited to the appropriation of this Board.

By a rule adopted by the Board, the Clerk is authorized to collect such money and pay out the same for labor or material by vote of the Board.

Following is the cash account for the twelve months ending December 15, 1905.

REPORT  
OF THE  
POLICE COMMISSIONERS  
OF THE  
CITY OF NASHUA, N. H.  
1905.

---

To His Honor, the Mayor, and Board of Aldermen:—

The Board of Police Commissioners for the City of Nashua respectfully submit their fourteenth annual report for the year ending December 31, 1905.

At a special meeting held on January 2, 1905, the Board organized with Frederic D. Runnells as Chairman, and James B. Crowley as Clerk, and Frank H. Wingate having been appointed by the Governor to complete the unexpired term of Hon. Andros B. Jones, qualified on this date.

During the year twelve regular and ten special meetings were held, and complaints were made against four officers, and hearings granted them. No changes have been made in the personnel of the force, with the exception of the Matron, who resigned during the year on account of ill health. Changes were made in the force by the promotion of William W. Wheeler to the position of City Marshal, George H. Campbell, Assistant Marshal, and Mark

R. Watson, Captain. New rules and regulations have been adopted, and the special officer force reconstructed, the old officers having resigned, and a limited number appointed, the present requirements obliging them to own their own uniforms and be ready for service when called upon.

A police signal and telephone system has been installed, and the efficiency of the force has been much benefitted thereby. The introduction of a Patrol Wagon combined with an ambulance would do much to improve the police service.

The following is a statement of the different offences for which arrests were made, and the number of the same, showing how disposed of, including the amount of fines, costs, and fees received and paid over to the City Treasurer.

### Librarian's Report.

To the Trustees of the Nashua Public Library:—

GENTLEMEN:—I have the honor to present the annual report of the Library for the year ending December 31, 1905.

The work of the circulating department has been carried on with the earnest endeavor to please and satisfy patrons. Not always could the latest novel be given, but in other divisions it was exceptional that something of interest, or help could not be found.

Several times the Boston Public Library has lent us books when we were unable to give the needed assistance in reference work.

The Bodley Library has been a great aid in giving the fiction desired. Our only trouble being that they do not give us the latest, so that we are unable to satisfy the readers who only care for a book "up-to-date." It is certainly desirable that we have books from the Bodley or some circulating library. We have subscribed for two hundred and fifty books. I think it advisable to have fewer and exchange more frequently. A list of sufficient length to keep the requisite number exhausts their supply, and we frequently receive books that we have had before.

The number of books and pamphlets added during the year is 1,607. Making our present number 24,608. Of these 1,473 have been purchased, 95 given, and 39 by binding magazines. Only a

small number have been works of fiction. If the Hussey bequest be obtained, and it could be used for a book fund many valuable and desirable books might be added, which our present means do not admit of purchasing.

During the year 429 books have been rebound.

It has been the good fortune of the library to secure the original charter of Dunstable, purchased from Dr. Israel T. Hunt's estate. At the same sale a few pamphlets of local interest were bought.

The books given out for home use number 66,834, of these 13,849 were taken in the children's room. This is an increase of 4,331 this year. Non-residents paying taxes in Nashua, and living in adjoining towns have been allowed to take books from the library. Several have enjoyed and appreciated this privilege.

The number of patrons added in the main library are 416, in the children's room 244.

The children's room shows no decrease in attendance and interest. There are many children who only come to read in this room, not taking books to their homes. It is a privilege to add to the pleasure of, and to brighten the life of these little ones, and at the same time to feel that perhaps a taste for good reading is being formed. Anniversaries of events in the history of our country, and the birthdays of famous persons have been observed by displaying appropriate pictures on the bulletin board.

In the reference room are 879 volumes. If it were not for the lack of shelf room other desirable books could be placed there. This room is supplied with 46 magazines. Engravings have been torn from a valuable reference book, and two books taken. As no one can be spared from our library force to remain in the room, we are obliged to trust to the honor and self-respect of the readers, and not deprive the many of the privilege of having books where they can be consulted.

In the newspaper room are 11 daily and 4 weekly papers, and 21 periodicals. The reading and newspaper rooms have been open every day during the year, with the exception of the holidays.

No statistics can be kept showing the number of books and magazines used, were this possible these figures would be ample proof of the usefulness of the library.

Photographs from the Library Art Club have been on exhibition in the reading room. Some of these collections have been particularly fine.

The publication of the quarterly bulletins, containing the list of books added, have been continued this year.

The press of our city still give us a copy of the daily papers for binding, besides printing our book lists each month, and giving notices of the picture exhibits, and other library items.

Respectfully submitted,

HARRIET CROMBIE, Librarian.

## OF THE

### TRUSTEES OF EDGEWOOD CEMETERY.

To the Honorable Mayor and City Councils:—

The Trustees submit the thirteenth annual report of Edgewood Cemetery, covering the calendar year of 1905, as follows:

Proper care has been given to the lots, walks and drives in the Cemetery. Some further work has been done in the North section of the grounds, which was cleared in the previous year. A new roadway has been built from the Cushing avenue entrance, Northerly, toward the office building. This road has been brought up nearly to grade, and it is the intention of the Trustees to complete the grading and surfacing during the coming year. This new avenue will make available a large number of heretofore unavailable lots. The lots which have been placed under perpetual care at various times have all been kept in order, as required by the bonds given.

During the year there have been 48 interments, viz: Adults 39; Children 9; the number including five veterans of the Civil War. There now rest in this Cemetery the remains of one veteran of the Revolution, five of the War of 1812, two of the Mexican War, and 88 of the Civil War. These graves are all properly marked. In the year 1905 we have received payment for and issued ten deeds for lots. Five lots have been placed under perpetual care and bonds issued therefor.

The financial condition, and the receipts and disbursements of the Board are shown by the following statements:

### TRUSTEES OF SUBURBAN CEMETERIES,

---

To His Honor, the Mayor, and the Honorable City Councils:

GENTLEMEN:—The secretary of the Board of Trustees of Suburban Cemeteries hereby submits his ninth annual report.

#### Condition of Cemeteries.

In the Evergreen Cemetery the lawns and lots have been kept in good condition. The work of grading and lawning certain portions of the yard has been carried forward in a most satisfactory manner. As the result of this; during the past year, the trustees have been able to dispose of a number of most desirable burial lots. There has also been considerable interest shown in the Perpetual Care Fund. There is still much work to be done in the new part; and the urgent need of a toolhouse. The trustees would also recommend the erection of a small chapel in order to provide a suitable place for burial services which is essential and especially so in severe and stormy weather.

In the Old South Cemetery the trustees have already begun on a plan to grade and lawn a portion of the yard and they will carry the work forward as fast as the finances will admit with a due regard to the care which will be required in the other cemeteries.

The Hillside and Gilson Cemeteries have been kept in their usual condition.

### Interments.

During the year there have been ten burials in the Evergreen Cemetery, two of which were from out of town and three were re-burials; in the Gilson Cemetery there have been two burials; making a total of twelve burials in the Suburban Cemeteries.

### Finances.

# REPORT OF BOARD OF HEALTH.

---

NASHUA, N. H., April 23, 1906.

To His Honor, the Mayor and the City Councils of the City of Nashua:—

GENTLEMEN:—In compliance with the city ordinance, the Board of Health herewith submits its annual report for the year ending December 31, 1905. The Board consisting of Mr. Frank Simmons, Mr. John C. O'Hare and Dr. D. M. Shea organized on January 3 with the choice of Mr. Simmons, clerk. The regular meetings of the Board were held every second and last Tuesday mornings of the month at ten o'clock at Dr. D. M. Shea's office.

During the past year several complaints were made to the members about certain nuisances existing in various parts of the city.

These were thoroughly looked into by the members of the Board and most of these nuisances were abated.

The number of contagious diseases reported were 59. Among this number were 11 cases of measles, 19 Diphtheria, 21 Scarlet Fever, 3 Typhoid Fever, 4 Chicken Pox, 1 Membraneous Croup and 3 cases of Small Pox.

The several houses where these diseases existed were thoroughly fumigated at the proper time.

Respectfully submitted,

DR. D. M. SHEA,  
Chairman of Board of Health.

## REPORT OF MILK INSPECTOR.

---

To the Board of Health of the City of Nashua:—

The number of licenses issued for the year beginning May 1, 1905, has been one hundred and three. There were also two licenses issued during the latter part of the previous year making one hundred and five licenses issued which brought into the city treasury \$210.00.

During the year there were one hundred and fourteen samples of milk tested from fifty-eight different dealers. Fifty-six samples were analyzed by my predecessor Mr. C. H. Noyes, as was also five samples of cream, during the part of the year that he was milk inspector, which ended December 30, 1905. And the remaining fifty-eight samples have been analyzed by myself during the months of January and February, 1906. Each sample has been tested for the percentage of fat, solids, not fat, total solids and water, and have also been tested for preservatives.

Respectfully submitted,

FRANK SIMMONS,  
Milk Inspector.

# REPORT OF COMMITTEE

OF THE

## CITY FARM AND HOUSE OF CORRECTION.

NASHUA, N. H., April 1, 1906.

To the Honorable Mayor and City Councils:—

The committee on City Farm and House of Correction herewith submit their report for 1905.

Inventory taken in Dec., 1905 .....	\$9,754.00	
Inventory taken in Jan., 1905 .....	8,595.63	
Gain in inventory .....		\$1,158.37
Appropriated, 1905 .....	\$4,250.00	
Receipts of Farm, 1905 .....	4,658.29	
		\$8,908.29
Total amount used .....	\$8,104.28	
Balance in treasury .....	804.01	
		\$8,908.29
Total amount spent .....	\$8,104.28	
		\$8,104.28
Receipts of Farm .....	\$4,658.29	
Gain in inventory .....	1,158.37	
		\$5,816.66
Net cost of running farm .....		\$2,287.62

A special appropriation of \$1,800 was made in March, 1905, for the purpose of making improvements in the buildings. A new silo has been erected which together with other improvements places the buildings in a first-class condition.

Your committee made a tour of inspection when the inventory was taken and were highly satisfied with the conditions found.

The stock was in good condition, the buildings well kept and in fact everything denoted the highly efficient manner in which Mr. and Mrs. Wheeler performed their duties.

Respectfully,

E. RAY SHAW,

*Clerk for Committee.*

## REPORT OF PARK COMMISSION.

---

To the City Councils of the City of Nashua:—

The Park Commissioners in submitting their annual report desire to say that during the past year no permanent improvements have been made on account of the limited appropriation. The property in our charge has been kept in repair and such expenditures as have been made, have been essential to the preservation and maintenance of the property.

The Commission desire to remind you and the public of their recommendation in prior years and state that as soon as the finances will warrant an expenditure they hope to fulfill and carry out former recommendations.

During the year the Highway Department have continued to excavate in the South Common and your Commission have been unable to obtain a settlement, and we desire to remind you and them that an early settlement is necessary.

The Greeley Farm property remains in the hands of the same tenants, and the North Common, inside of the track, was let to Mr. Eastman, who has cleared the brush and is improving the same and in a short time the Commission expect to see the land in a high state of cultivation.

Respectfully submitted,

C. W. HOITT  
E. H. WASON,  
J. A. NOBLE,

*Park Commissioners.*

9. The attending physician for the time being shall take charge of all other patients.

## REPORT OF EXECUTIVE COMMITTEE.

---

To the Nashua Emergency Hospital Association:—

GENTLEMEN:—Your trustees respectfully submit their 12th annual report for the year ending January 1, 1906.

The year just ended has been a busy and eventful one.

More patients have been treated than ever before, and the capacity of the building has alone prevented the acceptance of additional patients, an extra bed has been installed in the male ward, and at times the corridors have been filled with cots.

There have been during the past year 461 patients treated at the hospital, which is an increase of 60 over the year 1904. Of these 320 were house patients, and 136 out patients; 83 medical, 478 surgical, 134 accident. The average cost per day per patient was \$1.61. Of the 461 patients treated last year at the hospital 441 were discharged cured or relieved, only 20 died; of the 20 who died, 6 were brought to the hospital in a dying condition.

Seventy-two patients have been charity, for whose care the hospital has not been paid. It might be apropos at this juncture to call your attention to the fact that the hospital has in past years lost a not inconsiderable amount through bad bills.

In fact, during the past year, about \$1,900 is to be accounted for in this way.

It is to reduce this outgo to a minimum that your committee recently made a ruling that all patients, except charity, emergency, or accident cases shall pay, upon entering, one week, at least in advance.

Our greatest loss per patient per day is in the wards; our profits are made in our private rooms. The wards are filled

nearly the entire year, and usually there is a waiting list for the ward beds. The private rooms are not as numerous nor as continually filled. Increase in work has been commensurate with increased demand for cheaper accommodations, which in time means greater expense without the proportionately greater returns.

In this connection it might be well to mention the fact that the vast majority of the cases treated are pay patients; that is, the attending physicians, by bringing their private patients to the hospital for better care and attention, have rendered possible the very existence of the institution.

The increase in work, aside from over crowding at times, has increased the annual cost of maintenance. We have been obliged to increase the force of our training school from 8 to 11, and one extra maid has been needed in the kitchen.

The sleeping accommodations afforded the training school proved inadequate, and a room in an adjacent house was hired for the overflow.

Your committee deem it advisable to state at this time that the services of the entire staff, including the consulting staff and specialists are given without charge to all except their own private pay cases. That no physician connected with the institution has ever received from the hospital any pay for his services.

During the last few months our treasurer has, with untiring effort, secured promises of financial aid for the coming year, from many of our generous and philanthropic citizens. This will be of great assistance to next year's executive committee, and will prove a good precedent for years to come.

With the exception of the city's annual donation we are an unendowed institution. The Boston & Maine railroad and the Estabrook-Anderson Shoe Co., each give us \$250 per year for one bed, which generosity is thoroughly appreciated. But in the sense that is generally understood, we are unendowed.

Of the \$11,000 it cost us to maintain the hospital last year, we had to earn about \$8,000 ourselves.

But notwithstanding all our difficulties, each year proves more effectually than the preceding one the necessity in Nashua for just such an institution. We have come to stay, to fill a place in a growing manufacturing city. Our needs are many and increase with our age and usefulness—we need more money, we need more space, we need an endowment, we need the active cooperation and assistance of the women of Nashua.

Your committee feel that there has been some more or less public misunderstanding in regard to the medical service at the hospital, and therefore take this opportunity to state that the accommodations at the hospital are not limited to the doctors on the staff, or their patients, but are at the disposal of any recognized physician in the city, for the accommodation of his patients whom he may care for while there, subject to the rules of this institution.

In concluding this brief statement, the executive committee wish to express its appreciation of the work done by the hospital staff, who give each two months of their time gratuitously, of the efficient and satisfactory work of Miss Rogers, the matron, and of Miss Caswell, Miss Goold and Miss Heinimann, the assistant matrons of the past year, of the other nurses, and of the employes generally, and also of those physicians who have given their time and labor to the instruction of the nurses in the training school.

JAMES T. GREELEY,  
*Clerk of the Executive Committee.*

## TRAINING SCHOOL REPORT.

---

During the year there were 13 nurses admitted on probation and of this number seven were finally accepted. Two of the number were allowed to withdraw before the end of the probationary period. Two were not accepted. Two were dismissed for cause and one nurse was graduated and a diploma was issued to her. The number of the nurses in the school at the present time is 11.

It was deemed best during the past fall to follow the example of other training schools and lengthen our course to three years; it formerly having been two years. During the past year, nurses have been sent into private homes as frequently as they could be spared from the hospital duties. The amount of money received by the hospital for such services has been \$345.92.

At the present time we have an efficient class of girls in our training school and the work seems to be carried on in a satisfactory manner.

F. E. KITTREDGE,  
*Chairman of the Committee on Training School.*

indebtedness pursuant to the provisions of an act passed by the Legislature of the State of New Hampshire, entitled "Municipal Bond Act of 1895." The Mayor and City Treasurer are hereby authorized to issue and the City Treasurer to sell gold bonds of the City of Nashua in the aggregate principal sum of twenty thousand (\$20,000) dollars, which gold bonds shall be of the date of July 1, 1905, and shall be payable at the office of the City Treasurer in Nashua or at the National Shawmut Bank at Boston, in the Commonwealth of Massachusetts. The said bonds shall be payable to bearer and shall mature twenty years from the date thereof. The said bonds shall bear interest, payable in gold, at four (4) per cent., payable semi-annually on the first day of January and the first day of July of each year upon the presentation and surrender of the proper interest coupons to the Treasurer of the City of Nashua at his office, or to the National Shawmut Bank.

The said bonds shall be signed by the Mayor and shall be countersigned by the City Treasurer, under the city seal and the interest coupons shall be signed by the City Treasurer.

The proceeds of the sale of said bonds shall be used for the purpose of taking up outstanding notes of the City of Nashua for a like amount.

The City of Nashua shall create a sinking fund sufficient to meet this issue of bonds.

Passed Nov. 14, 1905.

## AN ORDINANCE

### REGULATING AND LICENSING OF JUNK DEALERS.

SECTION. I. The Mayor and Aldermen of said City of Nashua may license suitable persons to be dealers in or keepers of shops for the purchase and sale or barter of old junk, old metals, second-

hand articles, cotton or woolen waste, unfinished cloth and cotton and woolen mill yarns in an unfinished state not of family manufacture.

SECT. II. Annually in the month of April the Board of Mayor and Aldermen may grant licenses to suitable persons who shall have resided in this city one year and paid a poll tax assessed against them for the preceding year; this license shall not be transferable and shall be used only by the person receiving the same and no person shall collect or purchase any of the articles above specified without such license unless he acts as a helper to and in the presence of and with some licensee.

SECT. III. Each license shall designate the place where the business is to be carried on and shall contain a condition that the person to whom it is granted shall not purchase from any minor under the age of sixteen years, nor barter with any such minor for any article named in the preceding section, without the written consent of the parents or guardian and each license shall continue in force until the 30th day of the next April, unless sooner revoked.

SECT. IV. Each licensee shall pay to the city the sum of ten dollars for each license granted or issued.

SECT. V. Each licensee shall keep a book containing a record in English of each, any and all articles purchased or received, specifying the time of receiving them, the number, weight, quantity, and such other description as will identify the articles and the name and residence of persons offering same for sale or barter, which book shall be open at all times to the inspection of the police officers of said city, and any article or articles so purchased or received shall not be sold or disposed of until ten days after the day of the purchase and receipt of the same shall have elapsed.

SECT. VI. Each license shall be numbered and each person dealing in old junk, old metals and second-hand articles and collecting the same in any wagon or vehicles shall have placed upon the outside of such wagon or vehicle and upon each side of the same the number of the license in plain legible figures of not less than three inches in size, so that the same may be distinctly seen

and read; and every person collecting the articles aforesaid shall wear a badge on his hat or cap with the number of his license thereon in brass or plated figures of not less than one inch in size, and so placed that the number may be distinctly seen and read. The badges aforesaid shall be furnished by the City Clerk upon the deposit of one dollar, said dollar to be refunded when the license expires.

SECT. VII. Any person who shall be a dealer in articles aforesaid or keep a shop therefor without a license, and any person having a license who shall carry on business at any other place than that specified in his license, or shall violate any of the provisions of this ordinance shall be fined not exceeding \$10.00 or imprisonment not exceeding thirty days.

Passed March 14, 1905.

# SUPERINTENDENT'S REPORT.

---

*Gentlemen of the Board of Education:*

I beg to submit the following report, the thirty-ninth of its series.

## RULES AND REGULATIONS.

Although it is hardly in the province of a report from the Superintendent of Schools, yet it is a matter of so much importance that I cannot refrain from speaking of it at this time; I refer to the recent revision of the Rules and Regulations for the Board of Education. These Rules and Regulations were written in 1853, and up to the revision just made were, in the main, the same rules that were written at that time. To be sure, various additions had been made from time to time, but the body of the Rules and Regulations had been practically unchanged for over fifty years.

A committee consisting of Mr. Walter C. Harriman, Mr. John H. Field and Mr. John H. Vickery, lately appointed from your Board, undertook and carried forward to a successful completion, the entire revision of these Rules and Regulations. Each and every article was critically examined and wherever there appeared the least ambiguity, it was carefully re-written. Before the finished report was given to the Board, the rules were gone over again and again, and a much greater amount of labor and thought expended on this revision than can be imagined by anyone outside of the committee. It is my opinion that these Rules and Regulations in their present form will serve their purpose for many years without additional revision.

## SCHOOL BUILDINGS.

Within the past two or three years important improvements have been introduced in several of our school buildings. During the summer of 1904 a complete system of ventilation and heating was placed in the four-room building on Chandler Street. Proper closets were placed in the basement and adequate play-rooms were provided for the children; the same is true in regard to the four-room building known as the Harbor School. Before this was done there was absolutely no means of ventilation aside from the windows, and the sanitary appliances were of the crudest form, creating a constant menace to the health of the children. During the summer of 1905 even greater results were achieved at the Spring Street building, since it involved the health of a greater number of children. Here also was an additional danger, in case of fire, caused by the wooden ventilators which led from each room to the roof. These are now replaced by capacious galvanized iron flues, so arranged as to supply thirty cubic feet of fresh air to each pupil per minute, which is the recognized standard in several states.

With the completion of this ventilating system, every city school building is provided with a proper system of ventilation and heating; while ten years ago, out of the twelve city schools, only five could pass the usual test for well-ventilated school buildings. The influence which these improvements will have upon the increased health of the children can only be appreciated by one who has taught or studied in a room without means of ventilation in which are gathered from forty to forty-five pupils. Pure air, moreover, is as needful for clear thinking as it is for good health, and an improved system of ventilation is one of the prime requisites for the good morale of a school.

## MULBERRY STREET SCHOOLHOUSE.

During the past year, through the generosity of Mayor Andros B. Jones and the members of the City Government, one of the

worst buildings, so far as ventilation and heating were concerned, was replaced by a new four-room brick building, namely, the Mulberry Street school. As will be seen from the plan, the building, has four schoolrooms, well lighted, with well arranged staircases, an excellent basement equipped with modern closets and an adequate heating and ventilating plant. When the cost of the building is taken into consideration, I doubt if there is a better four-room brick schoolhouse in New England. There was so close a margin between the funds available and the cost of the structure, that it was found impossible to equip the building with new furniture. Accordingly, the four rooms were fitted up with such furniture as was available from the old building and the Main Street building. Doubtless in the future this furniture will be replaced by modern adjustable seats and desks.

A condition exists on the third floor at the Mount Pleasant school which is very undesirable. There are two rooms which a few years ago were partitioned off by a thin board partition from the old hall, which was formerly used for the weekly gatherings of the pupils. In these two rooms are the fourth and fifth grade children. Besides being on the third floor, which in itself is undesirable, the rooms are without proper heat and ventilation, and in case of fire the danger to these little children not only would be, but is, very real. A few years ago it was voted by the Board to erect a proper fire escape to lessen the danger, but it has not as yet been constructed, and even if it were, it would but partially correct the evils of the condition. It has been suggested that a four-room building, after the type of the Mulberry Street school, be erected on the lot of land which the city owns at the corner of Shattuck and Laton Streets, thus allowing the children to be withdrawn from the third floor at Mount Pleasant.

#### THE CURRICULUM.

Criticism has been wide-spread that too little time is spent in schools upon the fundamentals, especially arithmetic, and

too much time upon those subjects which are not of fundamental importance. Certainly, if it is true that the children in any city are not being well grounded in reading, language work and arithmetic, no time should be spent upon other subjects until these have been thoroughly mastered. It is my opinion, however, and I believe it will be verified by anyone who will carefully examine the school system in Nashua, that the fundamentals are not slighted, but that the work in these studies will bear the most careful and searching investigation. It would seem, however, that when satisfactory work is being done in those subjects for which the schools primarily exist, the curriculum should be broadened and enriched in every way possible, and particularly along practical lines. I would suggest in this connection the desirability of adding thorough courses in manual training in the lower schools as well as the High School, and at the same time an extended course in sewing and domestic science.

The curriculum in the High School should be made as practical as possible. As I have said in previous reports, we have been in the past too subservient to the dictates of college professors and have moulded our curriculum too much in accordance with their wishes and too little in accordance with the welfare of the great majority of our pupils. We must fit for college, to be suré, but do not let this fact, which is of so little importance comparatively, out-weigh the demands which the majority have upon us for providing them with the best possible training for their lives as intelligent citizens.

In closing this report I wish to express a deep sense of obligation to the members of the Board of Education for their loyal support and for the great interest which they have evinced in the welfare of the schools.

Respectfully submitted,

JAMES H. FASSETT.

# REPORT OF DIRECTOR OF MUSIC.

---

NASHUA, N. H., Jan. 1, 1906.

*To Mr. James H. Fassett, Superintendent of Schools:*

DEAR SIR:—This is the ninth annual report of the department of music under the present director and calls for no special feature since the material used in the schools is the same as that in use at the time of my last report.

From the first primary grade to the upper grammar the course of study has been pursued with much enthusiasm by both the pupils and the teachers, and the results have been exceedingly gratifying to the director.

As has been the case for four years the High School Choral class in conjunction with the Nashua Oratorio society gave a music festival in City hall, May 12 and 13. The choral parts sung by the school at that time were "Gallia," by Charles Gounod, "The Erl-King's Daughter," by Niels Gade and the Soldiers' Chorus from Gounod's opera "Faust." For this concert the school had the assistance of a professional orchestra from Boston and the following soloists from New York: Mme. Anita Rio, soprano; Mr. John Young, tenor and Mr. Frederic Wheeler, bass. The audience was very large and enthusiastic at this concert. There were many musicians in attendance from other cities all of whom were profuse in their praise for the chorus.

The Choral class has in preparation at the present time two beautiful cantatas which it will give at the annual festival, to be

held in May, with a professional orchestra and New York soloists.

I wish to express my gratitude to the Board of Education, the teachers and to you for the good will manifested.

Respectfully submitted,

E. G. HOOD,

Director of Music.

# REPORT OF DIRECTOR OF DRAWING.

---

NASHUA, N. H., Jan. 26, 1906.

*Mr. James H. Fassett, Superintendent of Schools:*

DEAR SIR:—The work of the schools in drawing, and other similar lines over which I have supervision has shown a satisfactory progress during the past year.

In May we held our second exhibition of industrial work in one of the new rooms in the Spring Street school. The variety of work shown this year was greater than that shown last year. The construction of the articles was better as were also the color and design. All the suburban schools sent exhibits, and considering the difficulties under which suburban teachers labor, the work shown was remarkable.

I am greatly in favor of holding small exhibitions from time to time.

In Nashua there are only two buildings which contain all the grades below the High School, but there are many buildings where the work of two, three or four grades is done. The teacher in the smaller schools have little opportunity of knowing about the work in the higher grades. An exhibition gives this opportunity and also gives the encouragement which a teacher deserves when she sees excellent advanced work done by pupils to whom she has taught the rudiments.

An exhibition also attracts many persons who would be very unlikely to visit a school room, and I am confident that it is worth considerable trouble to interest such people in school

work, and that it is a great advantage to teachers and pupils for the general public to see and be interested in their work.

The grammar and primary courses are substantially the same as those given last year. We are strengthening the mechanical drawing by extending it into the seventh grade. Twenty-four lessons are to be given during the winter term, in that grade.

The work which has shown the greatest improvement during the autumn term is the printing and decorating of booklets. The results were far ahead of anything which has been done in this line of work before.

In the high school a course of mechanical drawing was offered to twenty pupils chosen from the different classes. Mr. Dexter assisted by Miss Upton, has charge of the class. The work has started well, but it is too soon to speak of results.

In closing I wish to thank the Board of Education, the Superintendent of Schools, and all of the teachers for the encouragement and help which they invariably give me in my work.

Respectfully submitted,  
ELIZABETH L. BUCKINGHAM.
